

Foreign Orders

We will ship via the most cost effective carrier available to us, based on our experience of shipping foreign orders.

On small size packages US Parcel Post has proven to be the most cost effective carrier and when possible, orders under U. S. \$100.00 will automatically ship this way unless specified otherwise by the customer.

US Parcel Post has country specific restrictions based on size, weight, dollar value and whether the package can be insured.

All carriers base shipping chargers on the higher of either actual package weight or dimensional weight. Dimensional weight is calculated by multiplying the length, width and height of the box in inches then dividing by 166.

To ensure the best service, we will only ship packages that have adequate protective packing and are insured.

The order must be picked and packed to determine both the weight and dimensions of the package before a carrier can be chosen and shipping charges calculated.

On packages that cannot be shipped via US Parcel Post we will normally use BAX Global, UPS, Federal Express or DHL.

On larger freight orders you may specify a carrier.

On orders over \$100.00 shipping quotes can be provided on request, once your order has been picked and packed. We will not ship the order until you have approved the shipping charges.

All duties, brokerage fees, taxes and shipping costs are the responsibility of the customer. Please check with the appropriate importation authorities in your country before placing an order.

Foreign orders will ship as quickly as circumstances permit.

Foreign orders must be paid with a credit card, or, a check in US funds.

There is a \$10 charge to cover shipping and handling costs for catalogs shipped outside of the US and Canada. One catalog per request.
